

A WHOLE NEW WORLD FOR LED LIGHT

Godox **Bowens Mount to Projection Attachment Mount Adapter**

SA-17

Congratulations! You have now discovered the secret weapon to create theatrical effects with your Bowens Mount LED light—the **Godox SA-17 Adapter**. With the adapter, your **Bowens Mount** LED lights now have the access to the spotlight-shaping experience of **SA-P** Projection Attachment: lens, gobos, Iris, etc.

This combination allows you to hyper-control your lighting for both video and photography, painting light with detail brushes instead of paint rollers.

SA-P Projection Attachment and Surgical Accessories

SA-P Projection Attachment: to not only put on interchangeable lenses for focusing, but also slide in different light modifiers.

SA Lenses: to focus with the options of three prime lenses- ranging from wide angle to telephoto. Each lens features precise focus, smooth control and solid reliability to deliver unbeatable expressive performance. High-quality optical lens ensure no distortion.

SA-P Projection Attachment (included a SA-01 85mm Lens)

SA-01 85mm Lens

SA-02 60mm Wide-angle Lens

SA-03 150mm Telephoto Lens

SA-06 Iris Diaphragm: to chase the elusive spotlight with this 18-leaf Iris.

SA-06 Iris Diaphragm

SA-05 Scrim Set: to reduce intensity or harshness of light and control the beam gradation.

SA-05 Scrim Set

SA-09 Gobo Set: to manipulate your background in terms of its texture.

SA-09 GOGO Set

SA-07 Framing Shutter: to form triangles, squares, rectangles, trapezoids, and other shapes.

SA-07 Framing Shutter

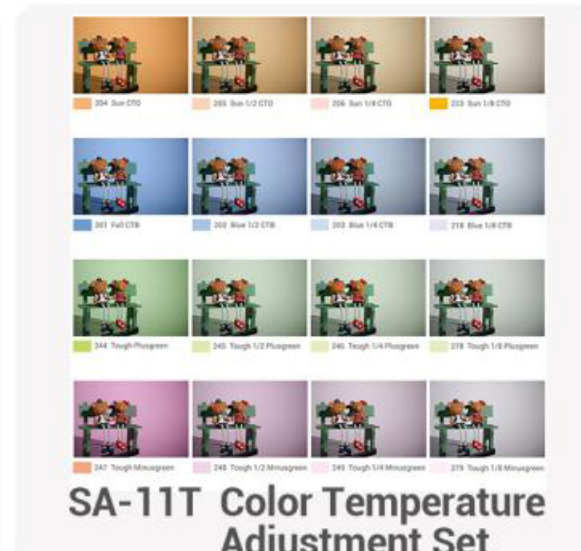

Color Gels Set: to do color correction or to create different atmosphere.

SA-11C/SA-11T Colors gels

SA-11C Color Effects Set

SA-11T Color Temperature Adjustment Set

A Special Note to Owner of S30

That's right! You can now use your **SA-P** gears on any other Bowens Mount LED Lights.
